SUMMARY AND CAREER OBJECTIVES

Fresh graduate in Bachelor of Computer Science majoring in Graphics & Multimedia Technology at University Malaysia Pahang Al-Sultan Abdullah (UMPSA) with a CGPA of 3.19. Currently seeking an internship opportunity from 9 March 2026 until 21 August 2026 to gain practical experience in UI/UX design, multimedia development, interactive systems and game design development. Eager to explore other IT areas such as cybersecurity, software development, cloud computing and networking to expand my skills and industry exposure. Motivated to apply my academic knowledge in real-world projects, improve my technical and creative skills and contribute positively to a forward-thinking and collaborative team environment.

EDUCATION

University Malaysia Pahang Al-Sultan Abdullah (UMPSA), Pahang

October 2022 - Present

- Bachelor Of Computer Science (Graphics & Multimedia Technology) With Honours
- CGPA: 3.19

Johor Engineering Matriculation College, Pontian, Johor

October 2020 – May 2022

- Matriculation Program: Civil Engineering
- CGPA: 3.71

- Developed and maintained responsive web interfaces using HTML, CSS, JavaScript, Vue.js, and Tailwind CSS.
- Worked on website development projects involving Umbraco CMS and reusable frontend components.
- Debugged and resolved frontend issues involving responsiveness, UI behaviour, browser compatibility, and API/backend integration.
- Collaborated with developers and senior team members using Git/GitHub for version control, branching, code updates, and issue resolution.
- Assisted with website testing, optimization, deployment, and troubleshooting across development and production environments.

PROJECTS

Memoir Of Malaya – 3D Educational Escape Room Game (Unity, C#)

2025

Final Year Project (Individual)

Developed a fully interactive 3D educational escape room game based on the Malaysian Form 4 History syllabus. Implemented multiple gameplay systems including a reusable quiz-book system, notebook interaction UI, door/key mechanics, puzzle triggers and pop-up feedback. Built a smooth player movement state machine using Animator and CharacterController. Designed immersive gameplay environments and integrated historical content to enhance student engagement.

FK Park Management System – Website Parking System

2024

Group Project

Developed a web-based parking management system for the Faculty of Computing (FK), UMPSA using HTML, CSS, JavaScript and PHP. The system manages parking information, user records and availability through a structured interface focusing on efficient data handling and user-friendly navigation.

Virtual Tour Of Pekan – Website 360 degree view of Pekan, Pahang

2025

Group Project

Developed a web-based virtual tour showcasing key locations in Pekan, Pahang using 360-degree panoramic views. The project allows users to explore locations interactively through clickable hotspots and smooth navigation providing an immersive and informative experience. Implemented using HTML, CSS and JavaScript with a focus on user-friendly UI/UX design and responsive web layout.

ACTIVITIES AND INVOLVEMENTS

- | | |
|---|---------------------|
| • Adobe Illustrator Digital Art Workshop & Exhibition | <i>October 2025</i> |
| • FK AI Industry Talk : AI Application in Industry | <i>April 2025</i> |
| • Karnival Mega 3.0: Campus Clash Battle Royale | <i>May 2024</i> |
| • Cisco Certificate Networking Associate (CCNA) | <i>October 2023</i> |

TECHNICAL SKILLS

- Graphic & Visual Design: Proficient in Canva, Adobe Illustrator 2024, and Photoshop 2024 for social media and branding visuals.
- Experienced in 3D modeling (Blender, Maya) and developing 2D, VR and 3D games using Unity.
- Intermediate in using Justinmind, Google Looker, Visual Studio Code, Android Studio, XAMPP, phpMyAdmin, Cisco Packet Tracer, Oracle VM VirtualBox, Ubuntu, Kali Linux and draw.io.
- Capable of managing content and engagement across Instagram, Facebook, TikTok and LinkedIn.

TRANSFERABLE SKILLS / SOFT SKILLS

- Excellent communication skills with experience presenting ideas clearly in projects and teamwork.
- Strong problem-solving ability gained through academic tasks and real-world projects.
- Adaptability and quick learning in handling new tools, platforms, and technologies.
- Effective teamwork skills developed through group assignments and active event participation.

LANGUAGE PROFICIENCY

BAHASA MELAYU: Native

ENGLISH: Intermediate
